

Tango Media in Association with Walker Cable

Tango Media in Association with Walker Cable Productions is happy to announce its next series of Film And Television productions. We are happy to offer these projects that will provide wide audience appeal and convey meaningful messages for all viewers.

Included in this slate is the compelling action adventure film entitled “Desert Prey”. This film brings attention to the heinous widespread crime of human organ trafficking.. In the vein of the successful film “Sounds of Freedom” (\$250 million in worldwide sales) about children’s sex trafficking. Human organ trafficking is a multi-billion dollar crime that is transpiring every day throughout the world and ongoing on a daily basis right here at home in the United States. This scripted and dramatic film will highly engage the audience but also educate and create widespread awareness to help combat and endeavor to eliminate this horrible crime.

For those of you who like mysteries, we have the “The Treasure Within”. The “Treasure” centers around a group of young teenagers that have won national essay contests writing mystery stories. In their latest project, however, they find, that they have been assembled surreptitiously to actually solve the mystery of a lost treasure, and they find themselves embroiled with real life-threatening danger. But by working together they unify and overcome great obstacles to prevail.

As a departure from feature film we are excited to announce a new television series entitled “Staged”.”Staged” centers around life in a small town and the drama behind the scenes of a small town theater..

All of our projects carry a message of Goodwill and depict situations where seemingly different people learn to work together towards a common goal. The films are feature length and the television series first season is ten episodes. The scripts and intellectual property is owned by us. All the projects are to be produced in Texas and will take advantage of the new Tax Incentives offered by the State of Texas. We hope you will enjoy the posters and story synopsis that follow.

OUR FEATURED SLATE

Tango Media & Walker Cable Productions present projects with wide audience appeal and meaningful messages.

DESERT PREY

Action-adventure film shedding light on the heinous crime of human organ trafficking. Scripted drama to educate and create awareness, produced with international experts along the Texas border.

THE TREASURE WITHIN

Mystery film where five teens, assembled surreptitiously, must solve the mystery of a lost treasure, overcoming life-threatening danger through unity and friendship.

STAGED

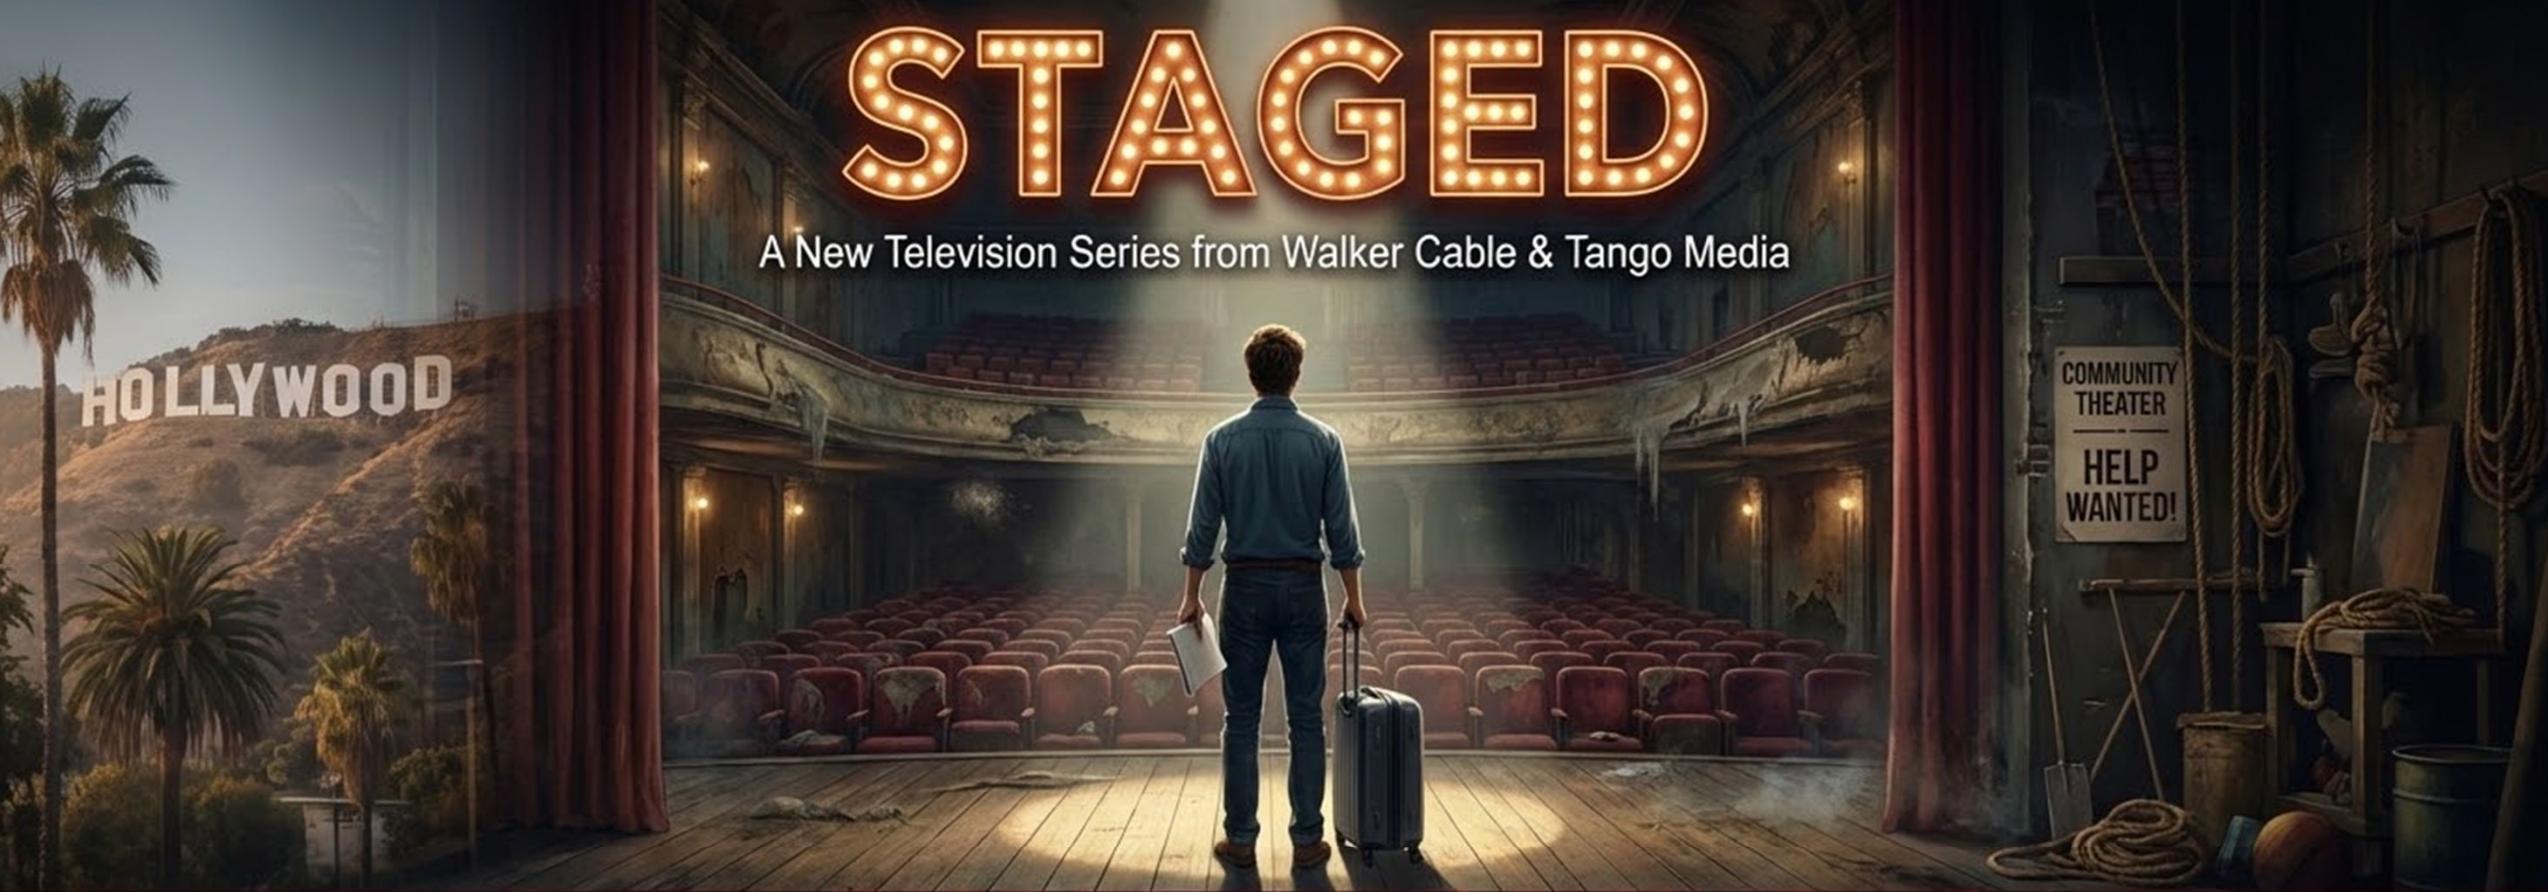

New television series (10 episodes) centering on small-town life and the behind-the-scenes drama of reviving a community theater, filmed in historic Conroe, Texas.

All projects carry a message of Goodwill, depicting diverse people working towards a common goal. Produced in Texas to utilize new tax incentives. We hope you enjoy the following posters and story synopsis.

STAGED

A New Television Series from Walker Cable & Tango Media

THE BACKSTORY

Brooks McKay, from small-town Texas, was destined for local applause but took his talents to Hollywood.

After years of auditions, he was cast as Sullivan Shade in "The Beating Heart", but was rejected by viewers loyal to the original actor. He became type-cast as the unwanted replacement, and the show was canceled.

THE CHALLENGE

The city fathers in his hometown decided to revive the languishing community theater and thought of Brooks.

He returns home to the task of jerking the theater into shape. The theater needs repair. Actors, singers, dancers, musicians, choreographers, directors, and crew must be trained and found.

THE CONFLICT & PROMISE

Brooks will be working with Debbie Lawrence, the "girl he left behind" to follow his dreams, and she still ain't happy!

Packed with drama, action, passion, comedy, songs, and dances, "Staged" is sure to strike a chord with audiences who love the smell of greasepaint and the roar of a crowd.

THE LEGEND OF THE TREASURE WITHIN

Billy is a handsome, sixteen year old, middleweight Golden Gloves Champion. Cindy is a pretty teen from India, always ready for adventure John is a nerdy, African-American honor roll student from Boston. Lauren is a teenage, Beverly Hills diva, always fussing with makeup and appearance. Howard is a small, timid Mexican-American student. Together, this eclectic group of teenagers is about to embark on a wild adventure.

THE QUEST BEGINS

The five are brought together at a "desert retreat" in Mason, Texas as a prize for winning the top spots in the national creative writing competition. While Lauren is presenting some cell phone pics from a desert excursion with the rest of the kids, Cindy notices some strange markings at the base of a large rock structure. The others dismiss these as just random creases caused by the years, but she insists that by adding a line and a squiggle in a couple of places, a cryptic message is conveyed in her own Hindi language.

The message: 7-STONE...C-TRAIN...GOLD.

The next day John sees an article mentioning a nearby cemetery, said to be the resting place of some of Jesse James' Gang. The name of the cemetery: COLTRAIN!!! (C-TRAIN).

THE CLUES UNRAVEL

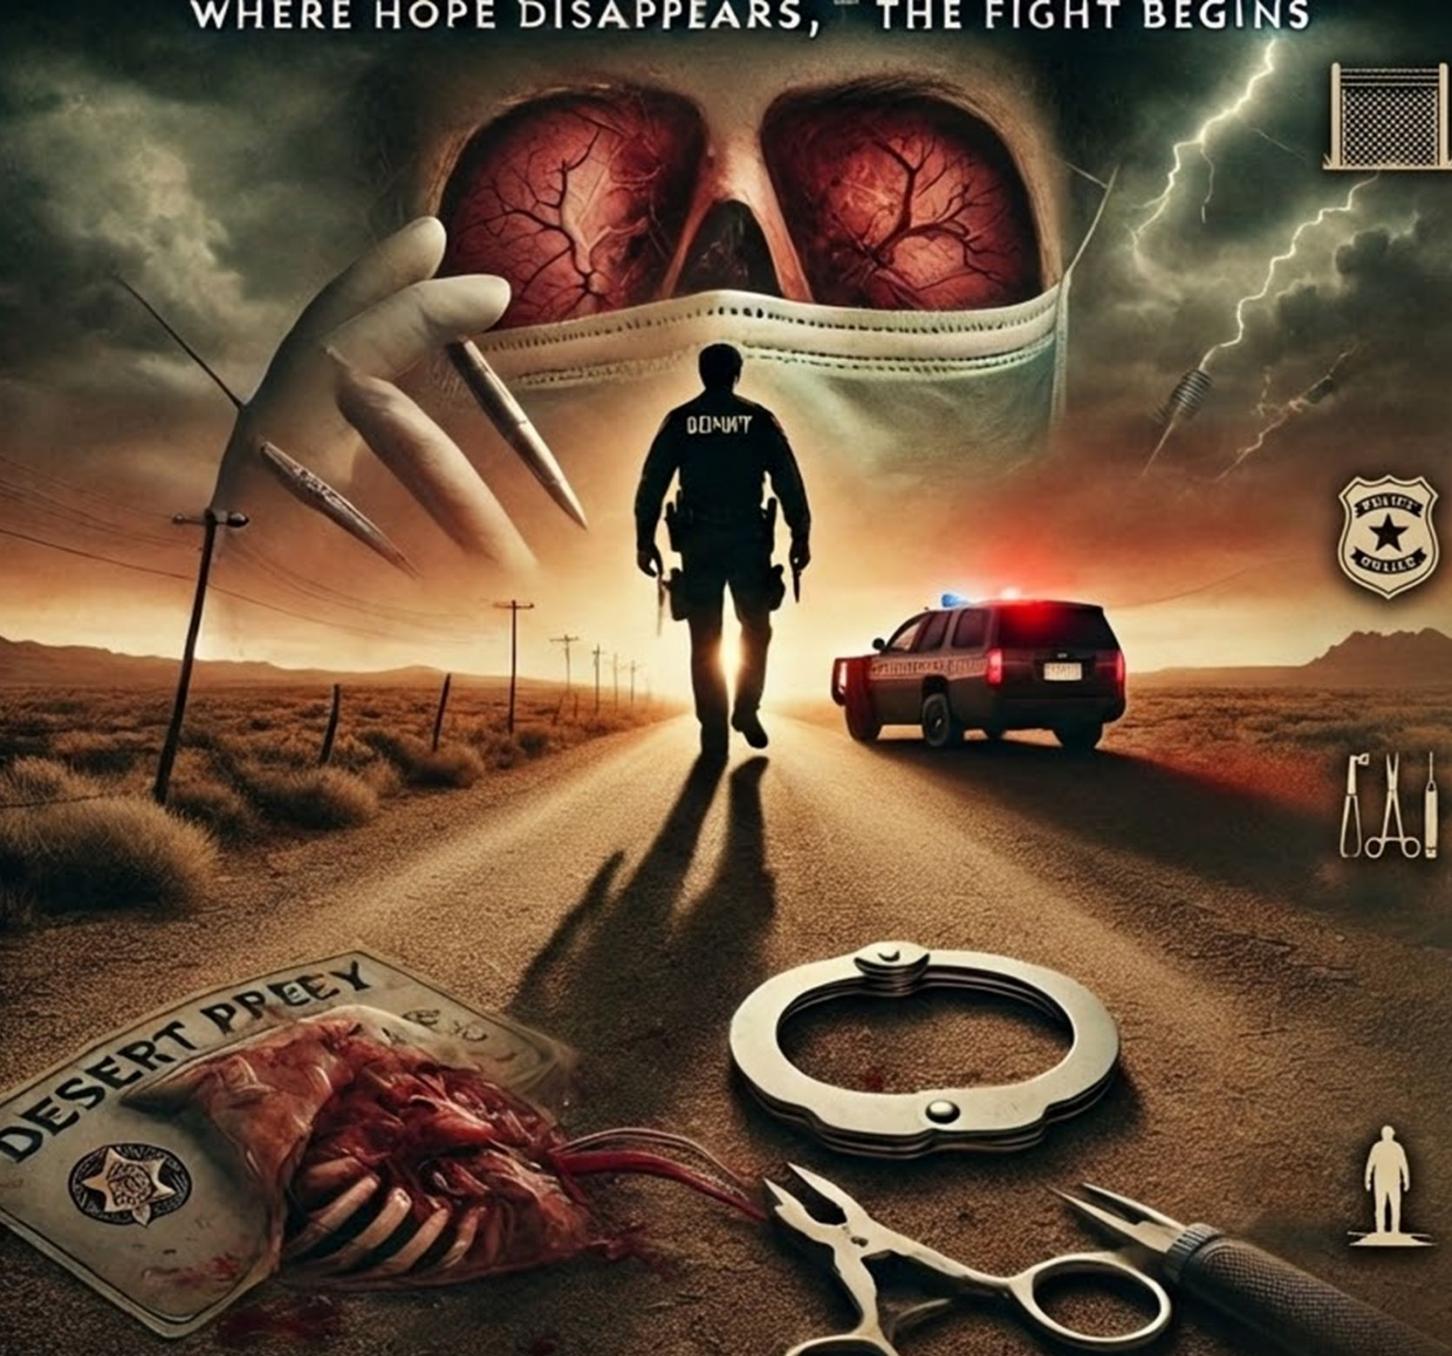

A nighttime road trip is taken. They see a headstone: Charles SEVENSTON. (7-STONE). And they dig, hoping that GOLD lies below!!! Thus five creative minds, entranced by the mystery and potential treasure, begin the unravelling of the next clue and the next. And they are led through caves, cliffs, swamps, and traps, each using their particular skill to navigate the danger.

THE STAKES ARE HIGH

Will the young adventurers actually find the treasure? Or could it be that someone else is using them as expendable guides to a fortune they plan to keep for themselves?

You'll be right in the middle of every clue and feel every eerie goosebump as these students solve the mystery in LEGEND OF THE TREASURE WITHIN.

WHERE HOPE DISAPPEARS, THE FIGHT BEGINS

THE SETTING: DESERT BORDER

Brackettville, Texas ...
On the border ...
Missing Persons ...
And a cop trying to find out why.

On both sides young men are missing. The Brackettville sheriff and the Acuna, Mexico police are working "mano a mano" internationally to find a motive and find those missing.

THE PREMISE: DEEP COVER

Young deputy Cord McKay agrees to go under "deep cover" to hopefully expose the criminal organization that's bound to be behind all this. He is dropped in the vast desert where many of the missing disappeared. And soon a van pulls alongside a dirt road, offering him a ride into town. That's all he remembers.

THE CONFRONTATION: HUMAN INCUBATORS

He wakes up in a spacious room with little light. From his own small cell enclosure he sees others lined wall to wall, inhabited by an eclectic collection of poor souls who have been in hideous captivity for months or years. Then he sees the horrible sight of a small gurney and a dim, hanging lamp with makeshift surgical tools scattered on a cart. Reality hits him: He and the other captives are no more than human incubators for their own vital organs that are taken as needed and furnished to the highest bidders.

THE STAKES

But where is this prison? Texas? Mexico? Overseas? Or is it much closer ... and operated by those much nearer? Cord McKay must rely on all of his skills as a detective and put his faith in something much higher and more powerful as he battles to escape being the most recent of the desperate and hopeless ... **DESERT PREY!**

WALKER CABLE PRODUCTIONS

An additional project to be selected depending on audience preferences

Thank you very much for taking the time to review our presentation. We appreciate your time and effort.

The television series “Staged” will be a 10 episode first season and will be primarily shot in and around Conroe, Texas. Conroe is a classic historic town located about 45 miles north of Houston. Conroe is the county seat of Montgomery County and home to the historic art deco Crighton Theatre where some of the series will be shot.

“Treasure Within” shows how five kids with differing socio-economic, ethnic, and religious backgrounds can band together piecing together clues and solving mysteries and working through danger and ultimately finding friendship.

The feature film “Desert Prey” is a scripted feature length film that deals with the heinous widespread crime of human organ harvesting and trafficking. We have arranged to have working with us individuals and foundations who have actually been on the front lines on an international scale combatting this terrible crime and treating the victims who survive (many don't) and are left with severe physical and psychological damage. We will be shooting the film along the Texas southern border where much of the crime has transpired over time and continues to this day. We will endeavor to produce a film that is not only visually impactful but will also educate and create awareness for audiences throughout the world.

The blank slide above is reserved for an additional project that we will select as we progress with our productions. We normally facilitate this policy as the audience preferences are always changing and we want to provide content that the markets desire and we feel will have the greatest message and impact.

All of our projects have been selected to convey humanitarian good will and meaningful messages. Each project will create over 100 direct and indirect jobs and provide a large financial impact in and around the areas of the productions. We thank you for your time and hope you will make a point to see our films and television shows when they are available

Thanks again and we hope to hear from you. Our contact information is available below.

THANK YOU FOR REVIEWING OUR PRESENTATION

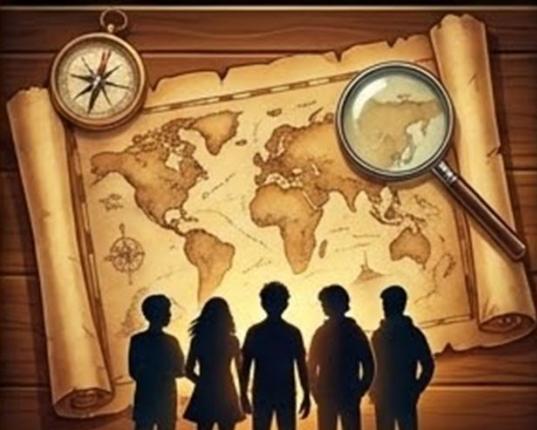

We appreciate your time and effort in reviewing our slate. Our projects are designed for wide audience appeal and meaningful impact.
